Summary Amendment A04335 to Senate Bill 22, P.N. 13

Amendment Sponsor: Senator Boscola

For FY 2008-2009 through FY 2010-2011 authorizes the Department of Environmental Protection (DEP) to expend up to \$100,000 annually from the Alternative Fuels Incentive Fund for a nitrogen tire inflation grant program.

Matching grants, not to exceed \$5,000, may be awarded to tire retailers for up to 50% of the costs of purchasing and installing nitrogen tire inflation systems.

DEP shall publish guidelines necessary to implement the grant program, and maintain a registry of grant recipients on the department's website.
